INDEX to Volume VIII, 1951–1952

Figures in heavy type preceding page references indicate the parts of *The Advancement of Science* in which references will be found.

Titles of communications are frequently abbreviated.

Aberdeen Harbour, by J. D. Lawson, **31**, 328, 333
ADAM, R. M., Scottish mountain flowers, **31**, 330
ADAMSON, Prof. R. S., Phytogeography of the Cape flora, **31**, 330
Aeroplane, Some social consequences of the, by Dr. E. Warner, **31**, 319
Agricultural surveys, **31**, 331
Agriculture of England and Wales, 1801, by Dr. H. C. K. Henderson, and Dr. R. A. Pelham, **31**, 327
AITKEN, Prof. A. C., Linear operations in the theory of probability, **31**, 324
ALLAN, Dr. D. A., The Scottish scene, **31**, 261
Ambition, personal, Attitudes towards, by Miss S. B. N. Shimmin, **31**, 329
ANDERSON, Dr. E. M., Highland geology, **31**, 325, 332
ANDERSON, Prof. J. E., Developmental level and adjustment, **31**, 329
ANDRADE, Prof. E. N. da C., Physics from 1850 to 1900, **31**, 324, 332
ANSTEY, Dr. E., Applications of psychology in the civil departments, **31**, 329
Anthropology, physical, A century of, by Dr. J. C. Trevor, **31**, 328
Apemen, S. African, by J. T. Robinson, **31**, 328
Arthur's Seat, Edinburgh, basalts of, by R. H. Clark, **31**, 325, 332
Asia, Southern, City idea in, by W. Kirk, **31**, 326
Aspergillis nidulans, Linkage map of, by Dr. J. A. Roper, **31**, 329
ATKINSON, R. J. C., Electrical resistivity surveying in archaeology, **31**, 328, 333
Atmospheric precipitation, production of, **31**, 324
Attitude testing, by E. G. S. Evans, **29**, 88
Aurorae and luminous night clouds, by J. Paton, **31**, 324, 332
Australian shore ecology, by Prof. L. Newton, **31**, 330
Autecology of some dominant plants, by Dr. C. H. Gimingham, **31**, 330

BAILEY, Sir E., Highland geology, **31**, 325; Developments in geological science, **31**, 325
BAINBRIDGE, R., plankton animals, **31**, 326, 333
BAKER, J. N. L., Historical geography in Britain, **31**, 326; **32**, 406
BALDAMUS, Dr. W., Socio-psychological factors in productivity, **29**, 91
BANERJEE, S. N., Disease of Norway spruce, **31**, 330
BANKS, Dr. C., educational research, **31**, 329
BARCLAY, Dr. J. A., Rôle of the kidney in control of body water, **31**, 328
BARRINGTON, Prof. E. J. W., Cytology of insulin secretion, **31**, 326, 332
Basalts of Arthur's Seat, Edinburgh, by Mr. R. H. Clark, **31**, 325, 332
Basidiomycetes on a small island, by Dr. A. F. Parker-Rhodes, **31**, 330, 334
BEATTY, R. A., Chromosomes and development, **31**, 325, 332
BEDDOWS, A. R., Perennial ryegrass in British agriculture, **31**, 329
BEDFORD, Dr. T., Industrial efficiency, **31**, 324
BEILBY, O. J., Marginal land farms, **31**, 331
BELL, Dr. A. E., Impact of science on religious education, **31**, 330, 334
BELL, Dr. G. D. H., History of cereals, **31**, 330
BERESFORD-PEIRSE, Sir H., History of Forestry in the U.K., **31**, 285
Biological science of the sea, by G. A. Steven, **31**, 326
Biology in Schools, Report of Committee, **29**, 66
Birmingham Meeting, 1950, Local Officers, **29**, 95
Blue sun, by R. Wilson, **31**, 324, 332
BLYTH, Dr. W., *Hapalospheria deformans*, **31**, 330
Body fluids of animals, by Dr. F. D. Robertson, **31**, 326
Body water, **31**, 328
Boiler plant, by W. G. Marskell, **31**, 327, 333
BOLTON, Dr. R. H., Eye-testing of students, **31**, 328, 333
BOND, Dr. G., Root nodules of *Myrica Gale* (Bog Myrtle), **31**, 330, 334
BORN, Prof. M., Physics in the last fifty years, **31**, 324, 332
BORTHWICK, R., Happy Weekend (film), **31**, 330
BOYD, Dr. D. A., Fertiliser practice, **31**, 331, 334
BRAMLEY, D. H., Supervision and management, **29**, 88
BREWER, Dr. A. W., Ice nuclei in precipitation, **31**, 324
British contribution to science and technology in the past hundred years, by H.R.H. The Duke of Edinburgh, **30**, 103
Brittany, British migration, by Prof. K. Jackson, **31**, 328
BROWN, Prof. W., Mycology over a century, **30**, 214
BROWNE, I. C., Radar studies of overhead clouds, **31**, 324
BRUNT, Sir David, A Hundred Years of Meteorology (1851–1951), **30**, 114
BRYAN, Sir A., Accidents in mines, **31**, 328
BURNS, Dr. C. L. C., Emotional states in adolescence, **29**, 90
BURNS, Dr. W., Root initials in the stem of *Jasminium nudiflorum*, **31**, 329, 334
BURROUGHS, G. E. R., Students for teacher training, **29**, 90
BURSTEIN, Miss S. R., Public health in primitive communities, **31**, 328
BURT, Sir C., Educational research, **31**, 329
BURTON, W. G., Potatoes stored in bulk, **31**, 331
BUSH, I. E., Pituitary adrenocorticotrophic hormone, **31**, 328

CAMPBELL, Miss E. M. J., Land and population problem in Fiji, **31**, 327
CAMPBELL, Sir G., Thinning of conifers, **31**, 330, 334
CAMPBELL, Dr. R., Geology of Edinburgh district, **31**, 325
Cantilever sheet piling in cohesionless soil, by Dr. P. W. Rowe, **31**, 328, 333
CARTER, Dr. G. S., Evolution of mammalian organisation, **31**, 326
Centenary of Section E (Geography), by Dr. O. J. R. Howarth, **30**, 151
CHECKLAND, S. G., Political economy in Roscoe's Liverpool, **31**, 327
Chemical Energy, Discussion on, **29**, 23
Chemical industry, Changing face of, **31**, 325, 332
Chemistry at the mid-century, by Sir Cyril Hinshelwood, **30**, 125
Chemistry since 1850, by Prof. F. A. Paneth, **31**, 324, 332; **32**, 397
CHILVER, Dr. A. H., Thin-walled structural members in compression, **31**, 328, 333
Chromosomes and development, by R. A. Beatty, **31**, 325, 332
CHRYSTAL, Dr. R. N., Rôle of insects in forestry, **31**, 330
CHURCH, Dr. R. J. Harrison, The sea in W. African development, **31**, 327, 333
CLARK, R. H., Analysis of basalts of Arthur's Seat, **31**, 325, 332
CLARKSON, P., Concrete, Heat-treated, **31**, 328, 333
Climate and famines in Scotland, by Dr. K. Walton, **31**, 327
Climatic change c. A.D. 1300, by Dr. A. Steensberg, **31**, 328, 333
Coalfields of Lower Forth, by Dr. M. Macgregor, **31**, 325
COLLINS, S. F., Coloured people in Britain, **31**, 328, 333
COLLYER, Dr. E., Predators of the fruit tree red spider mite, **31**, 326, 333
Coloured people in Britain, by S. F. Collins, **31**, 328, 333
Colour vision, by Dr. R. W. Pickford, **31**, 329, 334
Composite portraiture and typology, by Prof. D. Katz, **29**, 90
Concrete, Heat-treated, by P. Clarkson, **31**, 328, 333
Conference of Delegates, 1951, **31**, 284
CONNOLLY, Miss A. P., Late-Glacial deposits, **31**, 325
Continental Drift, Discussion on, **29**, 67
Continental drift, by Prof. C. R. Longwell and Dr. M. A. C. Hinton, **32**, 426
COTTRELL, Prof. A. H., The strength of metals, **31**, 325, 332
COTTY, W. F., Diamonds as counters, **31**, 324
Council's report, 1950–51, **31**, 342
Counters, proportional, by Dr. S. C. Curran, **31**, 324
Coven, The, as a royal institution, by Dr. M. A. Murray, **31**, 328
CRAIG, G. Y., Palaeoecology of *Lingula*, **31**, 325
CREMER, H. W., Changing face of chemical industry, **31**, 325, 332
CROSBY, Dr. J. L., Development of ideas in genetics, **31**, 330
CROWN, Dr. S., Experimental studies in psychiatry, **31**, 329
CROWTHER, Dr. E. M., Experimental Agriculture, **30**, 236
CULL, H. J., The technical college, **31**, 330
CULLEN, Dr. A. L., Measurement of micro-wave power, **31**, 328, 333
Cultivated plants, history of, **31**, 329, 334
CUMMINGS, R. H., Scottish carboniferous foraminifera, **31**, 325
CUNNINGHAM, H. U., Fertiliser trends, **31**, 303, 331
CURR, A. G., Printing in Edinburgh, **31**, 327, 333
CURRAN, Dr. S. C., Proportional counters, **31**, 324
CURRIE, Dr. E. D., Goniatites of the Scottish Carboniferous, **31**, 325
